

## March 16-18 Gathering of the Grandmothers in California

On March 16-18 women and men will come to the Sixth Annual Gathering of the Grandmothers from all corners of the earth. We will meet at the Aliso Creek Inn in Laguna Beach, CA .

As we enter this important year, our work with the Net of Light becomes increasingly potent. At the Gathering in Laguna Beach, the Grandmothers will show us how to activate the power of this lighted structure within our own bodies. They will also show us how to make the Net of Light available for everyone and everything on earth.

A Maori grandmother from New Zealand will share with us the teachings of Waitaha--the ancient people who lived in New Zealand several thousand years ago. She was one of five people called by the elders of Waitaha several years ago to bring the ancient teachings into the present time and, through the use of the sacred pounamou, to once again open up the pathways of peace. We are honored to have her with us.

Women from Living Design, the organization that has given grandmothers groups around the world hundreds of land and water resonators, will also join us at this Gathering. We have 'planted' these resonators from Norway to the Red Sea to Indonesia and from New Zealand to California. Sharing their knowledge from the new science of biogeometry, Tika and Shirley will demonstrate how the resonators work with the Net of Light to restore our planet to its actual design. They have even created a Google map so we can see where all the resonators are planted .
